

Student Involvement Opportunities

BIG SPARTANS/LITTLE SPARTANS- This program was created to help young students feel connected to high school students who demonstrate positive character traits. Being involved in this program should be considered an honor and a privilege.

Selected BCIS students are paired up with students from Boardman High School, who will serve as mentors. The Big Spartans meet with their “Littles” once a month on Friday, from 1:00 to 2:00 p.m. They participate in academic and team-building activities together, along with games and crafts.

MORNING ATHLETICS- Throughout the year, there are many opportunities to participate in morning volleyball or basketball, which is held in the BCIS Large Gym. Check back here for updates! These programs will be starting soon!

PANDA- “Prevent and Neutralize Drug and Alcohol Dependency.” PANDA empowers kids and teens by giving them the knowledge to make responsible decisions about the issues that affect them most today: drugs and alcohol, bullying, depression, violence, self-esteem, and more. In PANDA, kids are encouraged to make healthy decisions and to be comfortable with themselves – not only through information, but also through the

friendship and support of others who feel the same way. Through PANDA, students learn to become leaders in their schools, and to work together to find solutions that best fit their needs. For more information on how to involve your child, please contact Mrs. DePietro, at 330-726-3400.

DRAMA CLUB- The BCIS Drama Club is an organization meant to give students an opportunity to act and/or to sing on stage. Being involved in Drama Club is a great way for students to make friends and to enjoy music together. More information about the BCIS upcoming musicals and auditions will be coming soon!

If your student is interested in becoming involved in any student organization, please have them see their guidance counselor for details.
